

NAVIGATING CHANGE,  
DRIVING GROWTH

Welcome to MTT Consulting AG.

As an independent consulting partner, we navigate the management of medium-sized companies, especially family businesses, through all phases of transformation. We aim to secure our client's competitiveness and increase their value creation in the long term through fresh and practical concepts. We attach particular importance to openness, honesty, and fairness among ourselves and in our dealings with all stakeholders.

For us, consulting means responsibility. We don't just point out solutions, we take them into our own hands. As counselors and confidants, as analysts and initiators, as coaches and companions - and also as interim managers if required. As a top employer with a motivated team, our declared aim is to grow.

Grow with us as:
